

A Textbook of
NEUROPATHOLOGY

With Clinical, Anatomical and Technical Supplements

BY BEN W. LICHTENSTEIN, B.S., M.S., M.D.

Associate Professor of Neurology, University of Illinois College of Medicine; State Neuropathologist, Illinois Neuropsychiatric Institute; Attending Neurologist, Cook County Hospital; Professor of Neurology, the Cook County Graduate School of Medicine; Attending Neuropsychiatrist, Mount Sinai Hospital, Chicago.

DEDICATED TO

Two Inspiring Teachers

DR. GEORGE B. HASSIN

Emeritus Professor of Neurology, University of Illinois

AND THE LATE

DR. RICHARD H. JAFFÉ

Director of Pathology, Cook County Hospital, 1928-37

PREFACE

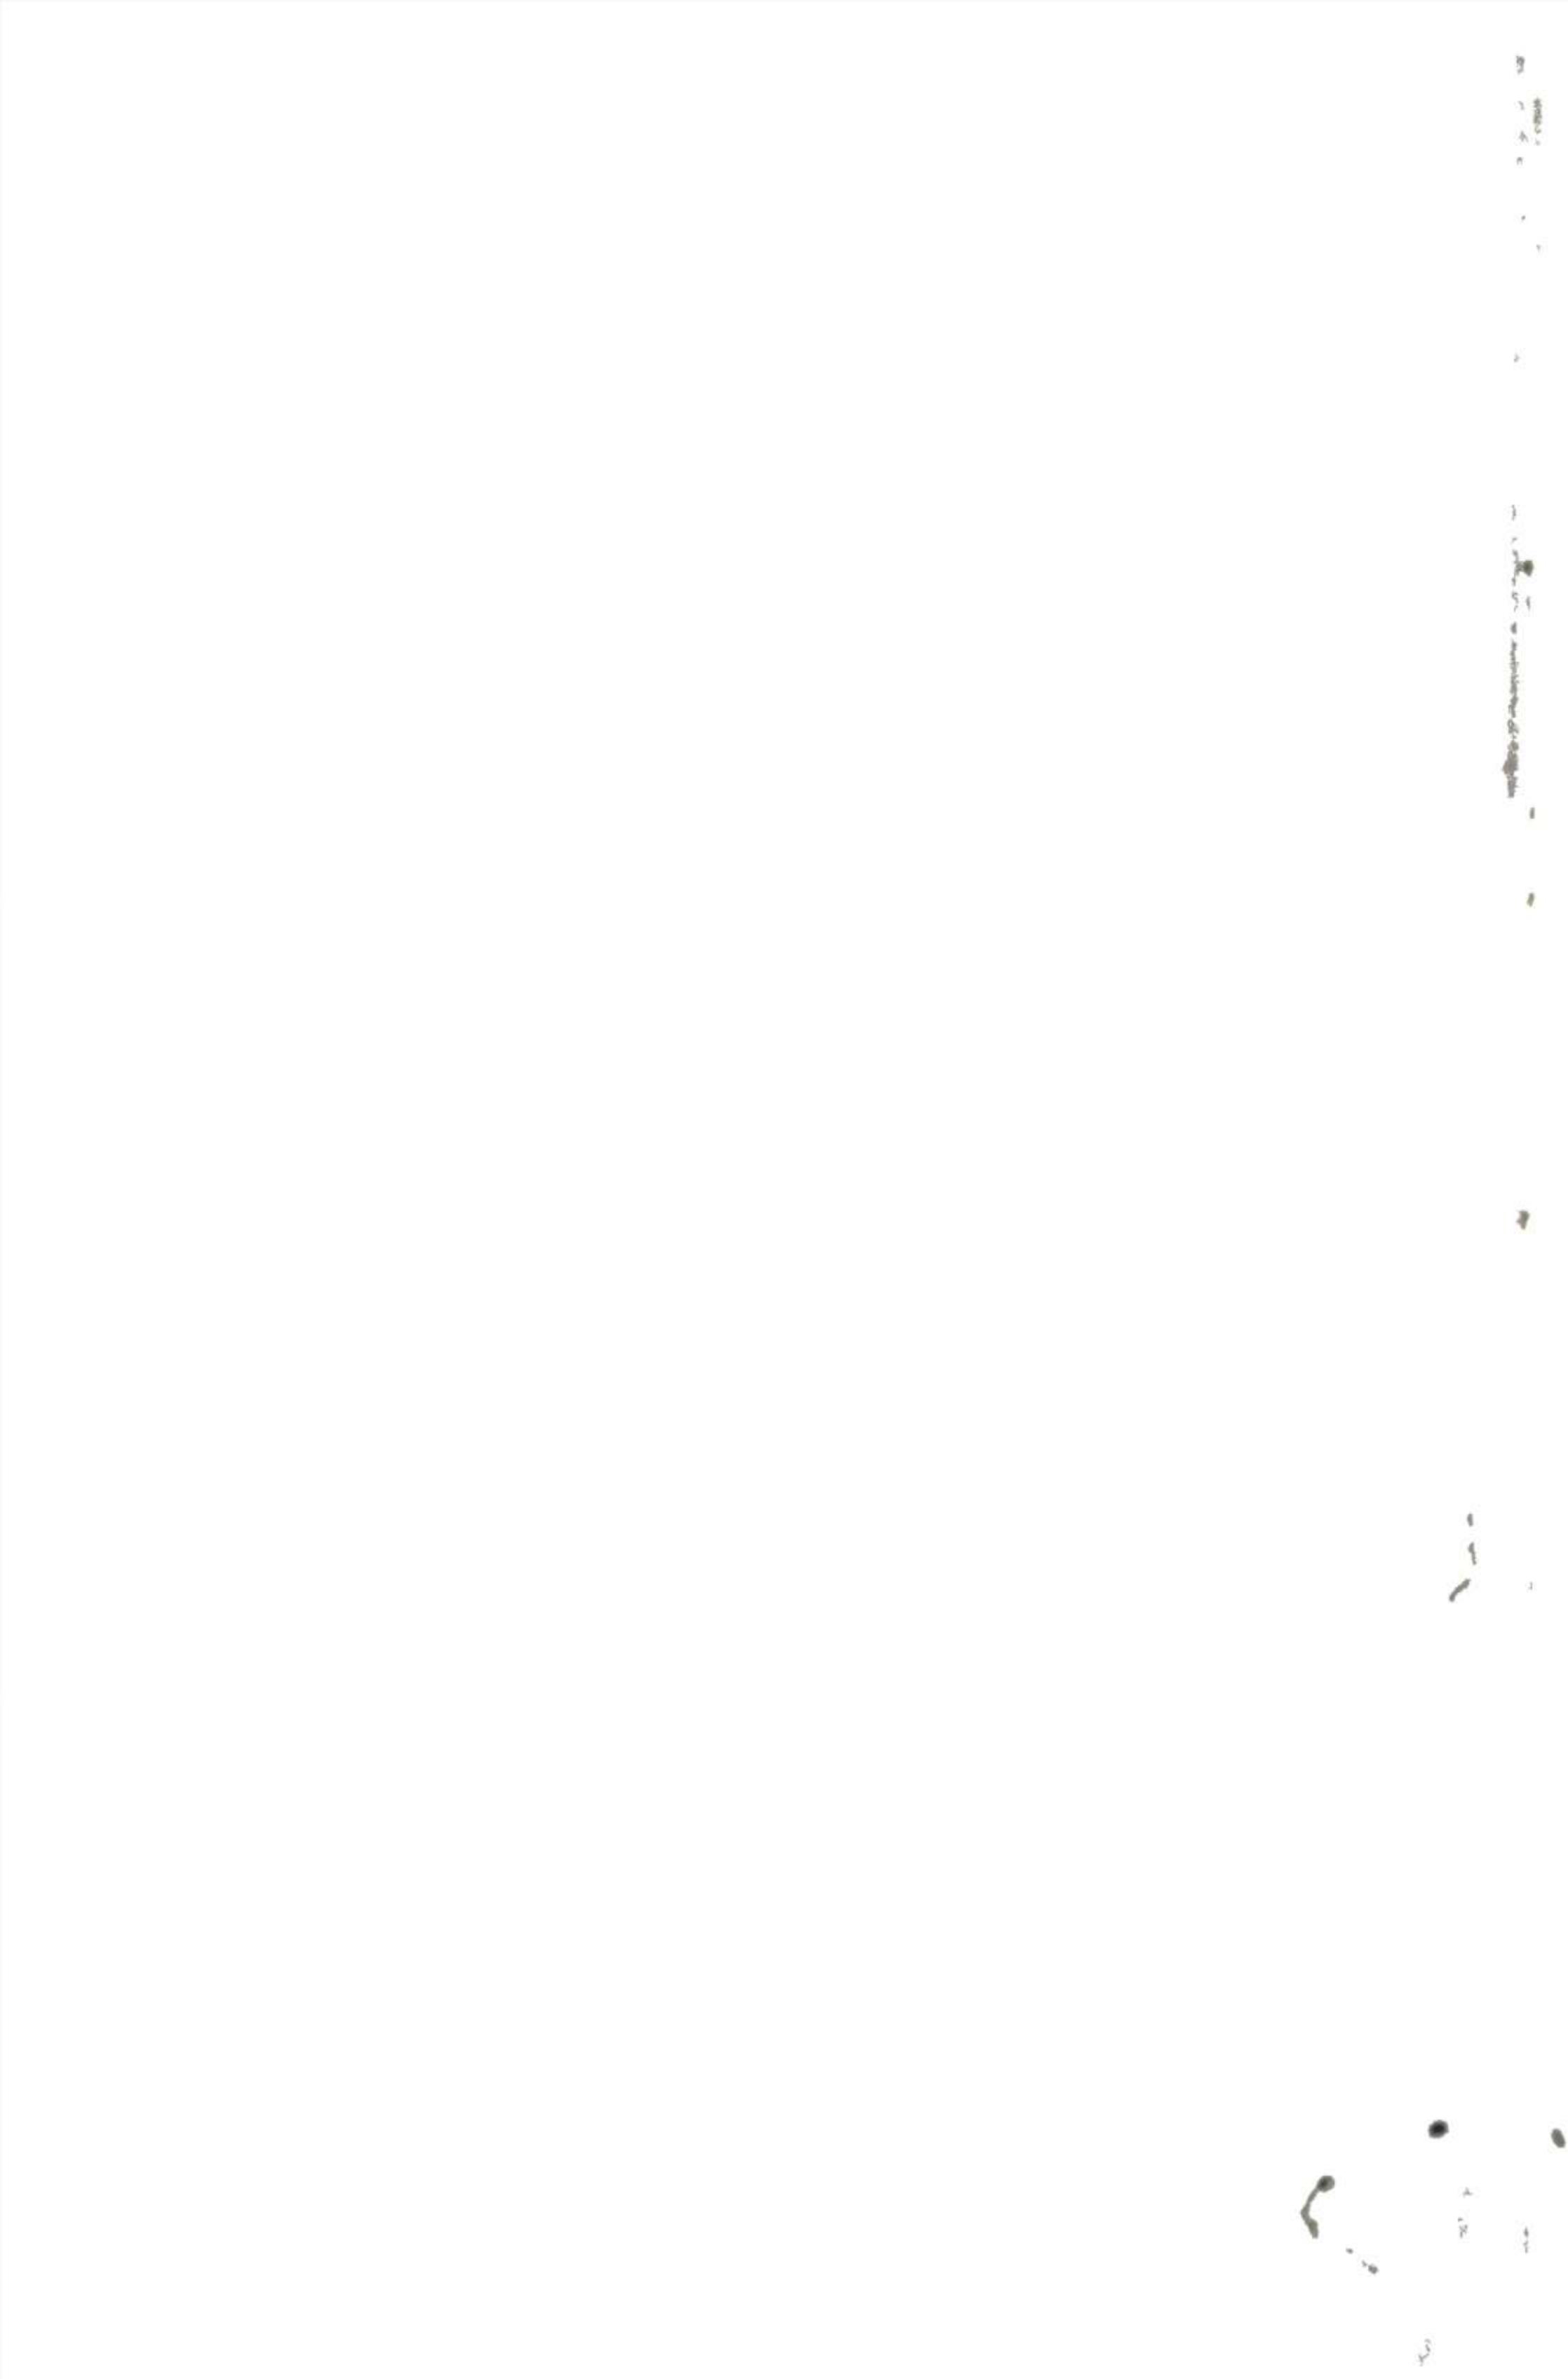

Neuropathology, formerly looked upon as a specialists' specialty, is slowly taking its proper place in the medical curriculum as a basic neurological science. The rapid rise of neurological surgery, the increasing interest in psychiatry, and the establishment of medical boards for the certification of psychiatrists, neurologists, neurological surgeons and pathologists has increased the demand for basic training in neuropathology. This Textbook of Neuropathology has been written primarily for the medical student and for those training in neurology, psychiatry, pathology and neurological surgery. The orientation of this work is anatomical. The discussion of the varieties of pathological change in the nervous system is prefaced by a chapter on pathogenesis and followed by clinical, anatomical and technical supplements. These chapters have been added to make the work a unit in itself.

For advanced study, there are a number of texts both in English and in foreign tongues, as well as the *Journal of Neuropathology and Experimental Neurology*, the various journals of pathology, neurology and psychiatry, and the monumental *Handbuch der Neurologie* by Bumke and Foerster in which the pathology and bibliography are excellent.

I wish to express my sincere appreciation to Dr. Eric Oldberg, Head of the Department of Neurology and Neurological Surgery, University of Illinois College of Medicine, and to Dr. Harry R. Hoffman, State Alienist and Executive Officer of the Illinois Neuropsychiatric Institute for the facilities placed at my disposal to make this work possible. I also wish to thank Dr. Percival Bailey for his advice and cooperation in reading and correcting large portions of the manuscript. To Drs. Jerry Kearns, Samuel A. Levinson, Alex B. Ragins, Jack D. Kirshbaum, Howard Zeitlin, Paul Szanto and scores of other friends and associates, I wish to express my indebtedness for the supply of interesting material. Acknowledgment is made to the publishers of the *Archives of Neurology and Psychiatry*; *Archives of Pathology*; *American Journal of Diseases of Children*; *Journal of Neuropathology and Experimental Neurology*; and the *American Journal of Pathology* for granting permission to reproduce illustrations from my articles, as itemized on page 455. I wish to thank Miss Mildred Tress for her excellent technical ability and her invaluable assistance as secretary in preparing the manuscript, and finally I wish to thank W. B. Saunders Company for their excellent reproduction of the illustrations and composition of the text.

*Chicago, Illinois
July, 1949*

CONTENTS

I. THE CONFINES OF NEUROPATHOLOGY AND NEUROLOGICAL NOMENCLATURE.	1
<i>References</i>	4
II. NEUROPATHOLOGICAL METHODOLOGY	5
<i>References</i>	16
III. PATHOGENESIS OF DISEASE OF THE NERVOUS SYSTEM AND NEUROPATHOLOGICAL ALTERATIONS	17
<i>Pathogenesis</i>	17
INFECTION - INTOXICATION - HYPERSENSITIVITY - DEFICIENCY - PHYSICAL FACTORS - HEREDOFAMILIAL TAINT - MALDEVELOPMENT - BLOOD-VASCULAR FACTORS - SENILITY - PSYCHOGENIC FACTORS - UNKNOWN FACTORS	
<i>Morphological Alterations</i>	24
DEGENERATION - REGENERATION - INFLAMMATION - HEMORRHAGE AND VASCULAR DISEASE - HYDROPS - HYPERPLASIA - NEOPLASIA - MALFORMATION - DEFORMITIES AND ARTEFACTS - ADVENTITIOUS SUBSTANCES	
<i>References</i>	27
IV. DEGENERATION	30
<i>Major Causes</i>	30
BLOOD-VASCULAR FACTORS - PHYSICAL FACTORS - INTOXICATION - INFLAMMATION - NUTRITIONAL DEFICIENCY - HEREDOFAMILIAL TAINT - SENESCENCE - ANATOMICAL OR PHYSIOLOGICAL DENERVATION - CAUSE UNKNOWN OR NOT UNIVERSALLY AGREED UPON	
A. <i>Degenerative Alterations</i>	32
DEGENERATIVE ALTERATIONS IN THE CENTRAL NERVOUS SYSTEM	
Degeneration of Nerve Fibers: SECONDARY - PRIMARY	32
Degeneration of the Tissues of the Central Nervous System as a Whole: NECROSIS - MALACIA	36
Degeneration and Alteration of the Nerve Cells	42
Degeneration and Alteration of Neuroglia	47
DEGENERATIVE ALTERATIONS IN THE PERIPHERAL NERVOUS SYSTEM	
Systemic Causes	49
NUTRITIONAL DEFICIENCY STATES - INTOXICATIONS - INFECTIONS - HEREDOFAMILIAL TAINT	

IV DEGENERATION (Continued)

Local Causes	50
VASCULAR DISEASE - INFLAMMATORY STATES - EXCESSIVE COLD - TRAUMATIC STATES - SEPARATION FROM TROPHIC CENTER	
Degeneration of Nerve Fibers	50
SECONDARY DEGENERATION - PRIMARY DEGENERATION - INTERSTITIAL FIBROSIS	
Degeneration of Tissues of Peripheral Nervous System as a Whole	53
NECROSIS - CONTUSION AND LACERATION	
<i>B. Degenerative Diseases</i>	53
DEGENERATIVE DISEASES IN THE CENTRAL NERVOUS SYSTEM	53
1. Degenerative Disease, Cause Unknown or not Universally Agreed Upon, and Degenerative Histopathological States Resulting from a Variety of Factors	54
Multiple Sclerosis	54
Acute Multiple Sclerosis	57
Optic Neuritis; Retrobulbar Neuritis, Neuro-Optic Myelitis	58
Amyotrophic Lateral Sclerosis	59
Acute Lennox-Encephalomyopathy	62
Multiple Degenerative Softening	63
Acute and Subacute Necrotic Myopathy	64
Acute and Subacute Necrotic Encephalopathy	64
Residual States Following Parenchymatous Degeneration	66
Cerebral Degeneration - LATE CHANGES IN LITTLE'S DISEASE LATE CHANGES FOLLOWING ADULT TRAUMA, INTERNAL HYDROCEPHALUS, PARENCEPHALY, ETC. - LATE CHANGES FOLLOWING TOXIC AND NUTRITIONAL STATES	66
Cerebellar Degeneration: PARENCHYMATOUS CORTICAL CEREBELLA DEGENERATION	68
Spinal Cord Degeneration: LATE EFFECTS OF TRAUMA - LATE EFFECTS OF CAISSON DISEASE - LATE EFFECTS OF ACUTE ANTERIOR POLIOMYELITIS	70
2. Degenerative Disease Resulting from Nutritional Deficiencies	71
Nervous System Disease Complicating Pernicious Anemia	72
SUBACUTE COMBINED DEGENERATION OF THE SPINAL CORD - CEREBRAL CHANGES IN THE COURSE OF PERNICIOUS ANEMIA	
Vitamin B Complex Deficiency	75
PELLAGRA - CEREBRAL BERIBERI (WERNICKE'S ENCEPHALOPATHY)	
3. Degenerative Diseases of Heredofamilial Origin	76
Lipid Dystrophies	77
AMAUROTIC FAMILY IDIOTY AND NIEMANN-PICK DISEASE - GAUCHER'S DISEASE - CHOLESTEROL LIPOIDOSIS - XANTHOMATOSIS	
Huntington's Chorea	80
Wilson's Disease (Hepatolenticular Degeneration)	81
Cerebellar Ataxias	82
Spinal Form: FRIEDREICH'S ATAXIA...	83
Olivopontocerebellar Form (Dejerine-Thomas)	83
Cerebellar Form: FAMILIAL DEGENERATION OF THE CEREBELLUM, ETC.	84
Mixed Forms: POLYMORPHOUS NEURO-ABiotrophy	85
Diffuse Sclerosis (Schilder's Disease)	86

IV. DEGENERATION (Continued)

4. Degenerative Disease Developing During the Senium and Presenium	88
SENESCENCE AND SENILE DEMENTIA - ALZHEIMER'S DISEASE - PICK'S CEREBRAL ATROPHY - PARALYSIS AGITANS (PARKINSON'S DISEASE)	
5. Degenerative States Resulting from Anatomical Denervation	93
Crossed Atrophy of the Cerebellum	93
Retrograde Nerve Cell Changes in Spinal Cord and Brain Stem	94
RETROGRADE NERVE CELL ATROPHY FOLLOWING AMPUTATIONS, ETC. - SECONDARY ATROPHY IN THE BRAIN STEM	
DEGENERATIVE DISEASES IN THE PERIPHERAL NERVOUS SYSTEM	96
Mononeuritis	96
Polyneuritis	97
Resulting from Nutritional Deficiency and Intoxication	97
Resulting from Infectious Disease	98
Resulting from Heredofamilial Taint	98
PROGRESSIVE NEURITIC MUSCULAR ATROPHY (CHARCOT-MARIE- TOOTH DISEASE) - PROGRESSIVE HYPERTROPHIC NEURITIS (DE- JERINE-SOTTAS DISEASE)

VI. INFLAMMATION AND INFLAMMATORY DISEASES	115
<i>General Considerations</i>	115
A. <i>Morbid Anatomic Types of Meningo-Encephalomyelitis</i>	119
MENINGITIS	119
Leptomeningitis	119
Pachymeningitis	122
ENCEPHALOMYELITIS	123
Suppurative: BRAIN ABSCESS, SPINAL CORD ABSCESS, SUPPURATIVE EPENDYMITIS	123
Non-Suppurative Encephalomyelitis	125
Transitions Between Encephalomyelitis and Encephalomyelopathy .	130
Hemorrhagic, Malacic, Necrotic and Proliferative Types of Enceph- alomylitis	131
B. <i>Etiological Types of Meningo-Encephalomyelitis</i>	133
1. NEUROTROPIC VIRUS INFECTIONS	133
Acute Anterior Poliomyelitis (Heine-Medin Disease)	134
Rabies	135
Herpes Zoster	136
Epidemic Encephalitis	137
Lymphocytic Choriomeningitis	139

IV DEGENERATION (Continued)

Local Causes	50
VASCULAR DISEASE - INFLAMMATORY STATES - EXCESSIVE COLD - TRAUMATIC STATES - SEPARATION FROM TROPHIC CENTER	
Degeneration of Nerve Fibers	50
SECONDARY DEGENERATION - PRIMARY DEGENERATION - INTERSTITIAL FIBROSIS	
Degeneration of Tissues of Peripheral Nervous System as a Whole	53
NECROSIS - CONCUSSION AND LACERATION	
<i>B Degenerative Diseases</i>	53
DEGENERATIVE DISEASES IN THE CENTRAL NERVOUS SYSTEM	53
1. Degenerative Disease Cause Unknown or not Universally Agreed Upon, and Degenerative Histopathological States Resulting from a Variety of Factors	
Multiple Sclerosis	54
Acute Multiple Sclerosis	57
Optic Neuritis, Retrobulbar Neuritis, Neuro-Optic Myelitis	58
Amyotrophic Lateral Sclerosis	59
Acute Leuco-Encephalomyopathy	62
Multiple Degenerative Softening	63
Acute and Subacute Necrotic Myelopathy	64
Acute and Subacute Necrotic Encephalopathy	64
Residual States Following Parenchymatous Degeneration	66
Cerebral Degeneration, LATE CHANGES IN LITTLE'S DISEASE - LATE CHANGES FOLLOWING ADULT TRAUMA, INTERNAL HYDROCEPHALUS, PARENCEPHALY, ETC. - LATE CHANGES FOLLOWING TOXIC AND NUTRITIONAL STATES	66
Cerebellar Degeneration, PARENCHYMATOUS CORTICAL CERI- BELLAR DEGENERATION	68
Spinal Cord Degeneration, LATE EFFECTS OF TRAUMA - LATE EFFECTS OF CAISSON DISEASE - LATE EFFECTS OF ACUTE ANTERIOR POLIOMYELITIS	70
2. Degenerative Disease Resulting from Nutritional Deficiencies	71
Nervous System Disease Complicating Pernicious Anemia	72
SUBACUTE COMBINED DEGENERATION OF THE SPINAL CORD - CEREBRAL CHANGES IN THE COURSE OF PERNICIOUS ANEMIA	
Vitamin B Complex Deficiency	75
PELLAGRA - CEREBRAL BERIBERI (WERNICKE'S ENCEPHALOP- ATHY)	
3. Degenerative Diseases of Heredofamilial Origin	76
Lipid Dystrophies	77
AMAUROTIC FAMILY IDIOTY AND NIEMANN-PICK DISEASE - GAU- CHER'S DISEASE - CHOLESTEROL LIPOIDOSES - XANTHOMATOSIS	
Huntington's Chorea	80
Wilson's Disease (Hepatolenticular Degeneration)	81
Cerebellar Ataxias	82
Spinal Form: FRIEDREICH'S ATAXIA, . . .	83
Olivopontocerebellar Form (Dejerine-Thoms)	83
Cerebellar Form: FAMILIAL DEGENERATION OF THE CEREBEL- LUM, ETC., . . .	84
Mixed Forms: POLYMORPHOUS NEURO-ABIOTROPHY	85
Diffuse Sclerosis (Schilder's Disease), . . .	86

IV. DEGENERATION (Continued)

4. Degenerative Disease Developing During the Senium and Presenium.....	88
SENESCENCE AND SENILE DEMENTIA - ALZHEIMER'S DISEASE - PICK'S CEREBRAL ATROPHY - PARALYSIS AGITANS (PARKINSON'S DISEASE)	
5. Degenerative States Resulting from Anatomical Denervation..	93
Crossed Atrophy of the Cerebellum	93
Retrograde Nerve Cell Changes in Spinal Cord and Brain Stem	94
RETROGRADE NERVE CELL ATROPHY FOLLOWING AMPUTATIONS, ETC. - SECONDARY ATROPHY IN THE BRAIN STEM	
DEGENERATIVE DISEASES IN THE PERIPHERAL NERVOUS SYSTEM	96
Mononeuritis.....	96
Polyneuritis.....	97
Resulting from Nutritional Deficiency and Intoxication	97
Resulting from Infectious Disease	98
Resulting from Heredofamilial Taint	98
PROGRESSIVE NEURITIC MUSCULAR ATROPHY (CHARCOT-MARIE- TOOTH DISEASE) - PROGRESSIVE HYPERTROPHIC NEURITIS (DE- JERINE-SOTTAS DISEASE)

CONTENTS	XV
XIII. ADVENTITIOUS AND METABOLIC SUBSTANCES	361
<i>Lipid Substances</i>	361
LIPOCHROMES - NON-PIGMENTED NEUTRAL FATS - CEREBROSIDES - PHOSPHATIDES - CHOLESTEROL AND ITS ESTERS	
<i>Pigments</i>	363
LIPOCHROME OR LIPOFUSCIN - MELANIN - MALARIAL PIGMENT - HEMO- SIDERIN - HEMOFUSCIN AND HEMOCHROMATOSIS - HEMATOIUDIN - BILIRUBIN	
<i>Hyaline Substances</i>	366
GLYCOGEN - AMYLOID - MUCIN - COLLOID OR COLLOID-LIKE SUB- STANCES - OTHER HYALINE SUBSTANCES	
<i>Inorganic Substances</i>	368
CALCIUM - IRON	
<i>Pathogenic Organisms</i>	370
BACTERIA - TREPONEMA PALLIDUM - LARVAE OF ECHINOCOCCUS AND OF TRICHINELLA SPIRALIS - FUNGI	
<i>Argentophil Bodies</i>	371
<i>Miscellaneous Substances</i>	371
<i>References</i>	372
XIV. MUSCULAR DISORDERS AND RELATED STATES	374
A. <i>Congenital Muscle Defects</i>	374
B. <i>Hypertrophy of Skeletal Muscle</i>	375
C. <i>Muscular Dystrophy (Primary Muscular Atrophy)</i>	376
D. <i>Myotonia Dystrophica (Myotonia Atrophica); Myotonia Congenita</i> <i>(Thomsen's Disease)</i>	377
E. <i>Myasthenia Gravis</i>	378
F. <i>Muscular Atrophy (Secondary)</i>	379
G. <i>Amyotonia Congenita (Myotonia Congenita or Oppenheim's Disease) and</i> <i>Werdnig-Hoffmann Disease (Infantile Progressive Spinal Atrophy)</i>	381
H. <i>Myositis</i>	382
